No, gentle reader, the Standard Oil Company is not a bit worried about that Federal Court decision declaring it to be an illegal combination and ordering it to be dissolved. The case will be appealed, and it's dollars to doughnuts the public will witness a repetition of what happened when the higher courts got hold of that \$29,400,000 fine assessed against the same corporation. By the way, how many trusts in this country have been busted by decisions of the courts and "my policies"? Don't everybody answer too emphatically and all at the same time.

A dispatch from Anna, Ill., says: People in all walks of life are subscribing very liberally to the monument which is to be erected over the grave of Annie Pelley in this city. The citizens of Anna and surrounding towns are eagerly mailing whatever amount they can contribute. This is the young lady outraged at Cairo a few weeks ago.
